# ANIMAL COP

We are a group of Carnegie Mellon BHCI seniors collaborating with the Humane Animal Rescue to design a solution that simplifies the animal abuse reporting and investigation process.

3 **Case reports** can be created in the same system and exported.

★ We stick closely to the existing workflow to allow maximum productivity.

1 Citizens send reports through our **online reporting site**.

★ We offer info about cruelty laws in clear and accessible language.

★ Before submission, we emphasis the seriousness of false reports.

2 Humane officers receive reports as an **optimized investigation itinerary**.

★ Itinerary is adjustable to allow HO expertise.

★ Prioritization happens based on distance and case urgency.

4 **Citizens receive immediate feedback** once the case is resolved.

★ Emails are sent automatically when a case is marked "closed" in the system.
